

BUSBAR TERMINALS

From PURE PM COPPER & PM ALUMINUM

Customizable

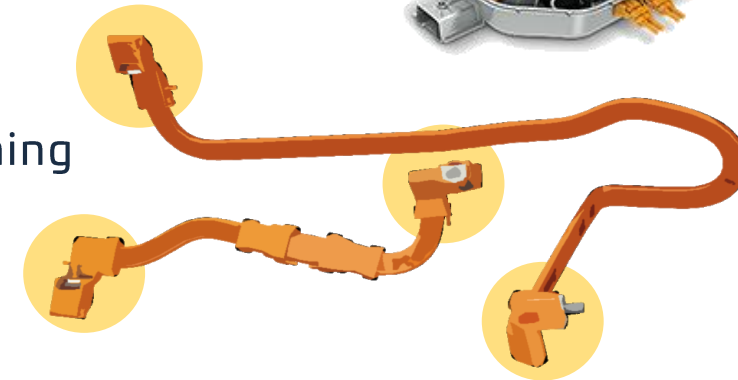

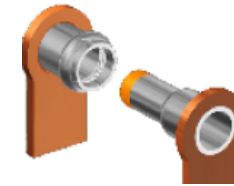

Easy Integration

Sustainable

CUSTOM & SUSTAINABLE DESIGN WITHOUT COMPROMISE

- ✓ PM technology design freedom enabling novel geometrical solutions
- ✓ Sustainable technology due to net shape zero material waste manufacturing
- ✓ Unique & high purity powder alloys for high conductivity (both for Cu and Al materials)
- ✓ Cost effective ultrasonic welding or alternative joining to busbar cables
- ✓ High accuracy high volume manufacturing eliminating subsequent machining
- ✓ Integration of several geometrical features into one piece design

INDUSTRY
Energy Storage

TECHNOLOGY
Powder Metallurgy

MATERIAL
Aluminum/Copper
