

To the management of our customers

Bruneck, 21.05.2024

- RoHS II – Directive 2011/65/EU, of 08 June 2011 (recast)  
 RoHS II – Delegated Directive 2015/863/EU, amending Annex II, of 31 March 2015  
 RoHS II – Delegated Directive 2024/232/EU (recast)

> **Directives on the restriction of the use of certain hazardous substances in electrical and electronic equipment**

Dear Sir or Madam,

GKN Sinter Metals is a globally operating company who considers the protection of the environment and the natural resources as our corporate responsibility.

The directive RoHS II, with gradually increasing scope, restrict in the current state the use of the following 6 substances in concentrations above the given concentration limits:

Substance	CAS	Concentration limit [%]
Lead	7439-92-1	0,1
Mercury	7439-97-6	0,1
Cadmium	7440-43-9	0,01
ChromiumVI oxide	1333-82-0	0,1
Polybrominated biphenyls (PBB)		0,1
Polybromierte Diphenylether (PBDE)		0,1

According to the Delegated Directive 2015/863/EU the following substances shall be banned as of 22 July 2019.

Substance	CAS	Concentration limit [%]
Di(2-ethylhexyl)phthalat (DEHP)	117-81-7	0,1
Butylbenzylphthalat (BBP)	85-68-7	0,1
Dibutylphthalat (DBP)	84-74-2	0,1
Diisobutylphthalat (DIBP)	84-69-5	0,1

We hereby confirm that in the components delivered by us; these 10 listed substances are not present in concentrations above the respective limits.

Yours sincerely  
**GKN Sinter Metals Bruneck**
